A strong and independent Internal Audit Function at the corporate level carries out risk focussed audits across all businesses, enabling identification of areas where risk management processes may need to be improved. The Board and the Audit Committee of the Board reviews Internal Audit findings, and provides strategic guidance on internal controls. It also monitors the internal control environment within the Company and ensures that Internal Audit recommendations are effectively implemented. In mean while the Board and the Audit Committee periodically undertake a review of the major risks affecting the Company's business and suggests steps to be taken to control and mitigate the same.

## **CONTINUOUS IMPROVEMENT**

The Company's risk management system is always evolving. It is an on-going process and it is recognised that the level and extent of the risk management system will evolve commensurate with the development and growth of the Company's activities. The risk management system is a "living" system and the documentation that supports it will be regularly reviewed and updated in line with the Company's objectives.
