

Special drive against defective number plates in vehicles

Chennai, Feb 26: Continuing their special drive against defective number plates in vehicles, Chennai City Police checked vehicles at more than 150 parking areas in the city on Saturday, including the Chennai Police Commissioner's office.

Greater Chennai Traffic Police officials said that about 3,232 vehicles were fined on Saturday.

Vehicle owners have been directed to pay the fine, rectify the number plate within three days and

the details of the same is to be sent to the concerned officer.

While the fine for first time violation is Rs 500, failure to pay the fine will lead to enhanced fine amounts, police said.

According to the Motor Vehicle (MV) Act, the size of number plates in two and three-wheelers should be 200X100 mm while for cars, it should be 340X200 mm or 500 X120 mm. For heavy/commercial vehicles, it should be 340 x 200 mm.

"The traffic police personnel will also be checking the size of letters and numerals of the registration mark. Except registration number, any other names, pictures, arts shall not be displayed on number plates. Fancy lettering is not permitted," an official said citing the MV Act.

City Police said that so far, more than 50,000 vehicles were made to rectify their improper number plates as part of special drives.

Dr. Sengottuvelu performs novel procedures on two patients

Chennai, Feb 26: Dr. Sengottuvelu G, leading interventional cardiologist of India performed two cases of novel orbital atherectomy procedures last week. Orbital Atherectomy was introduced in India and these two procedures were among the first few cases in India.

Dr. Sengottuvelu G, senior interventional cardiologist, Apollo main hospitals, Chennai and his team performed two cases using orbital atherectomy in patients having heavily calcified coronary arteries. One patient among them was an elderly patient post bypass surgery 15 years ago having chest pain at rest and had severely calcified tortuous left anterior descending artery. Patient was at high risk for redo coronary artery bypass surgery and anatomy of his vessels was unsuitable for bypass surgery. He underwent successful ablation of calcium using Diamond Back orbital atherectomy device with slow and at high speeds.

Calcified lesions are difficult,

challenging subsets to treat as they are hard and conventional balloon angioplasty do not work. There are several tools available to treat these hard blocks such as rotational atherectomy, intravascular lithotripsy, specialised balloons etc. Rotational atherectomy was only option available for several years. Shock wave intravascular lithotripsy was introduced few years ago and is based on ultrasound waves delivered with a balloon.

Orbital atherectomy is a novel therapy used for opening up calcified blocks (plaques) before stenting. It has a 1.25 mm diamond-coated crown which ablates the calcium into fine particles approximately 2 micron in size (sanding) and creates micro fractures in the calcium. The crown rotates in a circular motion within the vessel and it acts both during forward and backward movement. Device can be operated at low and high speeds and is decided based on the anatomy of the patient.

The availability of this device adds another option to treat these calcified blocks. It is particularly helpful in large vessels with long calcified eccentric lesions. The device has a learning curve and operator needs to be trained. The team has successfully done several innovative precision stenting techniques in complex lesions with good results.

Motorola gives lease of revival for Kuvi and Kangri

Chennai, Feb 26: Motorola, in partnership with the Lenovo Foundation, announces the next phase of indigenous language's digital inclusion project with the addition of two new endangered languages - Kuvi and Kangri - spoken in regions of India. This initiative makes Motorola the first OEM to support the preservation of indigenous endangered languages from regions in India.

This initiative is a step towards Motorola's commitment to embracing inclusivity and delivering smarter technology for all, by delivering the first-ever Kuvi language writing system and keyboard, and a fully localized Kangri smartphone User Interface to the devices.*

India tops UNESCO Atlas of World's Languages in Danger list with 197 endangered languages, out of 2,464 endangered languages

around the world, followed by the U.S. (191) and Brazil (190). When selecting the languages for this most recent phase of the project, Motorola analyzed many factors including the percentage of speakers in the communities to indicate loss of language, community access to technologies, engagement with the broader community, and availability of linguistics resources.

Public and private among banks to increase FD rates

Chennai, Feb 26: Giving a reason to cheer to depositors, several banks have raised interest rates on fixed deposits (FDs). Private sector ICICI Bank has increased its FD rates from Friday, following a similar move from other banks like State Bank of India (SBI), HDFC Bank, Punjab National Bank (PNB) and Yes Bank which have also raised rates on such deposits

ICICI Bank has raised interest rates in the range of 25 to 50 bps on retail deposits of less than Rs 2 crore. The bank is now offering interest rates from 3.5% to 7.10% per annum on fixed deposits maturing between 7 days and 10 years for general customers, as per the bank's website. For senior citizens, the bank is offering 0.5% more interest on these deposits. Banks have started hiking interest on FDs fol-

lowing the Reserve Bank of India's (RBI) decision to increase repo rate by 25 bps earlier this month. The Monetary Policy Committee, headed by RBI Governor Shaktikanta Das, had raised the repo rate to 6.5% from 6.25% on February 8 taking the total quantum of rate hikes since May 2022 to 250 bps.

For general customers, ICICI Bank is offering the highest interest rate of 7.10% on deposits maturing between 15 to 18 months and 18 months to 2 years. On deposits between 7 days and 29 days, the bank is now offering 3% interest rate while 3.50% interest on deposits maturing between 30 days and 45 days. FDs maturing between five years and one day and 10 years will earn an interest rate of 6.9%.

Other banks have also raised rates recently. Country's largest lender SBI raised interest rates on select

fixed deposits (FDs) by up to 25 basis points (bps) on February 15. For terms ranging from 7 days to 10 years, highest interest rates offered by the bank is 7%. Senior citizens can earn up to 7.5% on SBI fixed deposits. The public sector bank also launched a special programme with a '400-day' tenure, offering an interest rate of 7.10% for regular people and 7.60% for senior citizens. HDFC Bank has increased FD rates from February 21 and is now offering 3%-7% interest on such deposits.

PNB has raised rates on select FDs by up to 30 bps. The highest rate offered by the bank to regular citizens is 7.25% for a tenure of 666 days. Yes Bank has raised rates on FDs by 25 to 50 bps. The bank is offering rates between 3.25% and 7.50% for regular citizens for tenure ranging from 7 days to 10 years.

PayTM partners Apronix, for smart PoS devices

Chennai, Feb 26: One97 Communications Limited (OCL) that owns the brand Paytm, India's leading mobile payments and financial services company and the pioneer of QR and mobile payments, announced partnership with Apronix, India's Largest Apple Premium Reseller, to deploy smart PoS devices at their store in Chennai. With this partnership, Paytm will facilitate smart payments as the exclusive payments partner for the store, located at Phoenix Marketcity.

Paytm brings a range of flexible payments options including Paytm UPI, Paytm Wallet, and all major

debit cards and credit cards to customers purchasing Apple devices - from iPhone, iPad to Apple Watch, MacBook and more, from Apronix's new flagship store.

To celebrate the launch of the store, Paytm and Apronix have tied up to offer exciting discount vouchers worth Rs.3,000 to Rs.5,000 to Paytm users in Chennai.
